TRAFFIC SIGNAL IMPROVEMENTS AT GRAY AND UNIVERSITY

The City Traffic Control Division will be upgrading the traffic signal installation on Gray Street at the University Boulevard intersection. The work to be accomplished includes the replacement of three signal heads, changing indications in some of the other signal heads, replacing some signal wiring at the intersection, and replacement of a couple of traffic control signs. This work will take place on Thursday, April 24, 2014, weather permitting. After 9:00 a.m. on April 24th, the intersection may be temporarily controlled by an all-way STOP sign. Full signal operation should be restored at the intersection by 12:00 p.m. on the same day. Any questions about the project can be directed to Mr. David Riesland, City Traffic Engineer, at 405-329-0528.
